CLOSURES**

MENSHEN – Your trusted partner for chemical closures

# MENSHEN CHEMICAL CLOSURES

For the last 50 years MENSHEEN has been among the market leaders in chemical closures. We pride ourselves on providing our customers with reliable and safe closures for decades.

Chemical closures  
**you can rely on**  
Chemical closures by  
**MENSHEN**

Our highest priority has always been to provide safety for people and the environment they live in. That is why MENSHEEN ensures the best possible packaging, fulfilling all quality and safety standards. Toxic gasses and acids need to be contained, which is why MENSHEEN has developed its own chemical closure solutions specifically for those cases.

**Chemical closures by MENSHEEN**  
exceed all requirements  
of UN standards certification.

MENSHEEN closure systems undergo a number of tests and simulations repeatedly and continuously. In developing a sophisticated manufacturing process, permanent quality assurance and production monitoring MENSHEEN has created safe and reliable chemical closures.

**We can guarantee utmost safety  
and reliability for all our  
closure solutions.**

We appreciate your interest
